"Bundling the Contracts: TA-Energy"

By [William Kerr](#) and [Ant Bozkaya](#), Research Director, The Initiative on Turkey; Research Fellow, International Security Program/Science, Technology, and Public Policy Program

Stimulates discussion of entrepreneurship in emerging economies, especially for entrepreneurs returning to their home countries to start businesses with global technologies and partners. Focuses on the partnership tensions between global firms and local family-dominated conglomerates. Addresses new venture financing in an asset-intensive business through the assembly of strategic contracts. More broadly, highlights the opportunities and challenges for returnee entrepreneurs. Designed for entrepreneurial and international business courses.
